Presidential runoff needed

Hurtado vs. Chappell

Mike Hurtado

Rob Chappell

by FRED VULIN

Mike Hurtado and Rob Chappell will face each other in a runoff election for ASI president, it was announced late Thursday night.

SAC Chairman Hurtado collected 1521 votes (55.8 percent) while the second-place Chappell came up with 848 votes—or 21.7 percent of the vote cast in the ASI voting this week.

Failing to make the runoff election were Kevin O'Connor (655), Greg Fowler (440) and Doug Jorgensen (407). There were a total of 3916 votes cast, including 26 write-in candidates.

Hurtado's running mate, Roland Hill, led the vice-presidential candidates with a total of 1659 votes. Joining Hill in the runoff election for vice-president will be Phil Bishop, who ran second with 1165 votes.

Elected to the office of ASI Secretary was Cathy Carlson who ran unopposed and received 2580 votes. Pam Fischer, who ran unopposed for ASI Chief Justice, received a total of 2609 votes.

With the announcement of the two finalists for the ASI presidential race, the losers of the race were

already making announcements of their own.

Fowler said he would endorse Chappell for the office of president while Jorgensen said he would toss his support to Hurtado. According to the present chief justice:

"Naturally I'm unhappy. But Rob Chappell is now the most serious and dedicated candidate running. I give my support unequivocally."

And as for Jorgensen:

"I deeply support Mike Hurtado. He will be the only one to save the general student. I will not be involved with the ASI next year if Chappell is elected."

Present ASI president Scott Plotkin said he would endorse one of the candidates for the office he currently holds, but added that it would be in the form of a letter to the editor of the paper, probably to be published on Tuesday of next week.

Kevin O'Connor was not present Thursday night in the University Union when the runoff candidates were announced and it is unknown whether or not he will endorse Chappell or Hurtado if either of them.

Poly joins Cuesta with discount cards

Cal Poly and Cuesta College student bodies will join forces in a discount card program next September.

The Student Affairs Council here unanimously decided Wednesday night to accept Cuesta's offer to coordinate efforts with Poly in the venture.

Both student bodies now sponsor discount card programs. Holders of the cards receive discounts on purchases made at businesses which agree to join the program.

Forty merchants offer discounts through the Cuesta card. Over 50 are signed on with Cal Poly.

The Associated Students Inc.

here sells the cards to students for \$1. Cuesta's cards are given free to students when they buy their \$10 student body card.

Next year, however, there will be only one card. Printing costs will be shared by both schools. Cuesta and Poly also will share the task of soliciting merchants for the program.

Chairman of Cuesta's ad hoc discount card committee, Mike Brady, told SAC that combining forces would make things easier for the businesses involved with the program.

With high schools now considering similar discount (continued on page 2)

Mexican dinner proceeds given for music tour

A benefit Mexican Dinner will take place on May 15 from 4 p.m. to 7 p.m. The dinner is part of the scheduled events of La Fiesta 1978. The cost for the dinner will be \$2 per person.

The entire proceeds of the dinner will be donated to the Cal Poly Symphonic Band for their trip to the International Youth and Music Festival in Vienna, Austria, this summer.

The dinner will be sponsored by Fidelity Savings, 742 Marsh St. and will be in the city parking lot opposite the bank.

Concert to be given by symphonic band

The Cal Poly Symphonic Band will present its Annual Spring Concert in Chumash Auditorium of the University Union May 17, at 8:15 p.m.

William V. Johnson, conductor of the band, said that because of the band's extra work and practice, the band will perform "a concert unmatched by any of its previous performances."

Tickets for the concert are \$2 for General Admission and \$1 for

students. Tickets are available at the door, but the supply is limited. Advance tickets can be purchased at the University Union information desk and at off-campus locations.

Dr. David Whitwell, of California State University Northridge, will be guest conductor. Whitwell has conducted major professional orchestras in the United States, Europe, and South America.

Dymally gives speech

by MARK GROSSI

California's lieutenant governor Wednesday night blamed both farmers and state government for a rising consumer grocery bill.

Before a packed house in Chumash Auditorium, Mervyn M. Dymally spoke in will-chosen phrases to Future Farmers of America (FFA) from all over the state. Over 1,000 FFA members, who were in attendance for the organization's 47th annual Banquet and Program, gave him a standing ovation.

Dymally, amid the occasional clinking of silverware and rustling of programs, said the government had not done its share in land preservation for agriculture:

"There are many laws, rules and regulations designed to meet the needs of the state to preserve lands for agricultural purposes. These laws are observed more in the breach than in the enforcement."

"Neither the legislature nor local governments are diligently or vigorously complying with the dictate of the constitution."

The lieutenant governor said

urban sprawl robbed the farmer of a lot of good land. He said 1.9 million acres—about the size of Delaware—is removed from the food production category and used for highways, airports and other purposes.

"The random gobbling up of agricultural lands pushes up the cost of food production," Dymally said.

He conceded that California may have reached the end of its land frontier. Dymally called for the FFA to work with the representatives of both the private and public sector to assure proper planning of land for agricultural use.

But, he also pointed the finger at farmers: "The farming industry has become so energy-intensive—using equipment and processing—that efficiency has actually decreased. Today it takes 10 times as much energy to produce the same amount of food as we did in 1910."

"Fifty-seven thousand tons of nitrogen fertilizer were required in 1968 merely to produce the same crop yield per acre in Il-

linois that 11,000 tons had produced in 1948."

I view of the rising cost of energy in today's society, Dymally challenged the FFA to find less energy-intensive systems of farming.

He said, "We must begin to explore alternative forms of energy which may be put to use so that we can ease our dependence upon oil and its related products."

"If we do not find new alternatives, future farmers will have to look forward to ever-increasing prices for needed pesticides and fertilizers and consumers will have to cope with ever increasing food prices."

At a press conference held earlier Wednesday, Dymally talked of the energy problem and one alternative: "I think we need more off-shore drilling. We need it to become more independent of foreign oil producers."

"I think we should move cautiously on nuclear power. But I don't think the utility companies are doing enough to explore nuclear energy."

Letters

Bike theft

Editor:

On Tuesday, May 6th, at about 6:30 p.m. I returned from my class to find that my bike had been stolen from the bike rack between Science B-05 and the Electrical Engineering building. I suppose most people would simply write this type of occurrence off as a common event on today's college campuses, but my feelings about this incident go deeper than that and I would like to share them with you.

I came to Cal Poly 2 and one half years ago with the strong belief this campus and its student body had a basic decency and respect for others somehow unique from most other college campuses. I'm sorry to say now that my feelings towards Cal Poly have changed. I realize that it is unfair to judge the entire campus on the basis of this one occurrence, but my feelings towards such immaturity and disrespect for individual property do not dictate otherwise.

To make a plea now for the return of my bike would seem fruitless to most, but I will end by saying this. If the person or persons who stole my bike are now reading this, and if it is possible that any decency is left within them, please make an effort to return my bike. Please call 544-7147, no questions asked. If for

nothing else do it for the sake of restoring one person's faith in humanity and give me the opportunity to one day leave Cal Poly with the same type of high respect I had for it when I came here 2 and one half years ago. Give a guy back a little peace of mind.

Ken Jenny

Bad job

Editor:

I was very disappointed to read the editorial in which you disposed your opinion on the qualifications of the ASI electorates. It conveyed an attitude which I felt to be very unhealthy. The value judgments, which you made, were primarily concerned with initiating an effect regardless whether the reader would concur if he had the same information, which you claimed to have, to base his own opinion independently. In my judgment, this was cheap. What you expressed was to me an obvious opinion, which you used as a tool to seriously cripple the campaigns of some very fine people. This is mud-slinging.

I believe that it is fair to say responsibility tends to have an intoxicating effect upon its bearer. The damage is done but I hope that you will act more soberly in the future.

Greg Zaller

Bicentennial programs set

by DAVID RICH

The last three lectures in a series sponsored by the School of Communicative Arts and Humanities commemorating the Bicentennial will be presented next week.

It will also be the last week to view two Smithsonian sponsored exhibits titled "Manuscripts of the American Revolution" and "The Hand of Man on America."

President Robert E. Kennedy said of Cal Poly's commemoration of the Bicentennial:

"As the University's share in the celebration of our nation's 200th birthday, we will look both to the past for a better understanding of our values and how they were formed and to the future for increased insight into the directions America is traveling.

Jon Ericson, dean of the School of Communicative Arts and Humanities, said of the series:

"The exhibits, together with

the film and the lectures, introduce the Bicentennial theme to be developed throughout 1975 and 1976: A past to remember - A future to mold."

May 12 at 7:30 p.m. in Agricultural Engineering Rm. 125, attorney Harry Woolpert will lecture on the "First Amendment Freedoms."

Woolpert, former instructor at College of the Desert, Cuesta College and Cal Poly, is an attorney in San Luis Obispo. He has degrees in both law and political science from the university of California at Los Angeles.

Dr. Page Smith will lecture on May 14 and May 15. On May 14 at 7:30 p.m., he will speak in the Cal Poly Theatre on "Jefferson and Revolution." Dr. Smith will speak on "The American Revolution as a People's Movement" at 11:10 a.m. in the University Union Rm. 220.

Dr. Smith is the author of numerous books including "James Wilson", "Founding Father" and "Daughter of the

state senator, addressed himself to topics ranging from the South Vietnamese refugees in California to the educational system in America. In a personable voice the lieutenant governor answered affirmatively when asked if he disagreed with any parts of the governor's budget.

"I don't agree with Gov. Brown on all the cuts he's made," Dymally said. "But he's not necessarily upset because I do. I like to disagree without being disagreeable."

After the press conference Dymally toured the Cal Poly campus. Being a teacher himself, he said he always has been interested in higher education.

"I think," Dymally said, "we should strive to change the traditional manner of educating. We're not meeting the needs of the students. I think a little more involvement with the community is called for."

Discount cards get approval

(continued from page 1)

programs there has been fear that merchants would be fed up by a flood of discount seekers, all bearing different cards.

The unanimous vote Wednesday came after Brady assured SAC only the card would be presented to each Cuesta student body member.

Some of the representatives wondered how they could justify selling the card for \$1 while Cuesta students would receive the exact same card for free.

Because of this, SAC amended the motion to join in the program.

With the approval of the joint discount card program with Cuesta College, the sale of the ASI discount cards will be decided at a later date.

There has been speculation that SAC may decide to also give the card away for free next year, according to several of the representatives.

Track and field events to test super strength

"Super Team Competition" with events of track, weight lifting, cycling, swimming, and running an obstacle course will be May 11 and May 18.

Five-man teams will test their strength and endurance the second and third Sundays in May.

Students wishing to be part of this should sign-up at the Intramural Office, Rm. 104 of the Men's Physical Education building. The cost is \$7.50 per team.

Campus news

The 4th annual plastics symposium sponsored by the Industrial Technology department and the student chapter of the Society of Plastics Engineers, will be held May 29-30.

The conference will feature top management personnel giving presentations and exhibiting displays related to plastics in the environment.

Open to all faculty, students and staff, admission is free for the two day meeting. The symposium will be from 9 a.m. to 4 p.m. May 29, and from 10 a.m. to 4 p.m. May 30.

Roller skating party plans will be discussed at the May 15 meeting of PALS, a student community service club here. The party is scheduled for May 17.

The meeting will be at 7:30 p.m. in the Ag Building, Rm. 216. If you cannot attend the meeting, sign up for roller skating with Janet Albee in University Union, Rm. 217.

A slide show titled 'Posterizing in Chumash Auditorium at 12:15 p.m. May 21. Sponsored by the School of Architecture and Environmental Design, the show was originally presented during Poly Royal and blends color manipulation and architectural images.

Admission is free.

The Environmental Sciences and Engineering Club (ESEC) of Cal Poly was admitted as a student chapter of the Air Pollution Control Association (APCA). ESEC, the second student chapter to form under APCA, will be installed in the association on May 15.

Reine J. Corbell, chairman of the West Coast section of the APCA, will make the official installation, which will be held in Room 219 of the University Union at 7:30 p.m.

The Cal Poly Wives Club will be sponsoring at P.H.T. (Pushing Hubby Through) graduation ceremony on June 8 at 2:30 p.m. in the Chumash Auditorium. The wives of graduating seniors who

wish to participate should contact Bev Blaswich (at 544-8419) by May 15.

Theater, as Shakespeare knew it — with the artist creating the illusion of the scene — will be presented at Chumash Auditorium.

"Miracle at Midnight" will be presented by Rena and Stanley Waxman, veterans on the stage, in films, on radio and television, at the May 18, 7:30 p.m. performance.

Larry Hyland, student chairman of the Fine Arts Committee, says the Waxmans are two persons who appear on an empty stage, without benefit of costumes or props. With their own charisma they transport the audience into a world of illusion.

Besides the Waxman's public appearances, they have served as teachers on the Chapman College World Campus Afloat and have produced a book of three one-act plays.

The public is invited to attend. Admission will be \$1 for Cal Poly students and \$2 for all others.

Sign-ups for the intramural table tennis tournament will be taken until Tuesday, May 13 in the intramurals office Rm. 104 of the Men's Gym. The tournament, scheduled for Sunday, May 18 at 1 p.m., is open to all students. The events include women's singles, men's singles and coed doubles.

Nominations for the 1975-76 Science and Mathematics Council chairperson and secretary will be taken at meetings Tuesday, May 13 and Monday, May 19 in Rm. 217D of the University Union. Interested persons are encouraged to attend the 6 p.m. council meetings.

A Mother's Day Coed Bike Race will be held on Sunday, May 11. Participants, who should sign up in the Intramurals office, will meet in front of the Men's Gym for the race. There is no fee.

Bicentennial lectures

Promised Land: Women in American History."

He was awarded the Bancroft prize for his two-volume biography on John Adams. He received a Ph.D. from Harvard and has taught at both the University of California at Los Angeles and the University of California at Santa Cruz. Smith is currently the staff historian for the people's Bicentennial Commission.

The two Smithsonian exhibits can be seen in the University Union through May 16. "The Hand of Man on America" is a photo exhibit by David Plowden. Plowden says of his work:

"As a photographer I have tried to express my deep distress over

our appalling indifference and our misplaced priorities. I have tried to show on the one hand what we are capable of and, on the other, what we are doing."

The second Smithsonian exhibit, titled "The Manuscripts of the American Revolution," is made up of 33 documents and letters of historic value. They provide a view of many of the events of the Revolutionary War period and end with the election of George Washington.

Sorority sponsors 100 hour marathon

A teeter totter marathon, sponsored by Alpha Phi sorority, is now in progress in the University Union Plaza to raise money for the Cardiac Fund.

A new sorority on campus Alpha Phi has 32 girls participating in the marathon. Each girl will contribute six hours on the teeter totter, usually riding for one hour shifts.

Mexican music

Los Camperos Mariachis will perform at a free concert in the gymnasium of the Valley Road Campus of Arroyo Grande at 8 p.m. on May 12.

This 12-man group creates an authentic sound of Old Mexico. They have made famous the Wilshire restaurant, La Fonda, and they have performed at such places as Carnegie Hall.

The girls are raising the money by having people make a pledge of a minimum of one cent per hour. Half of the money will be contributed to the Cardiac Fund and the remainder will go to the sorority.

The marathon began at 6 a.m. Wednesday and will continue until 10 a.m. Sunday. The sorority plans to complete a total of one hundred hours during this time. The teeter totter was built and given to Alpha Phi by Phi Kappa Psi fraternity.

Mustang nine hosts Northridge

by JIM SWEENEY

Instead of looking down on the rest of the California Collegiate Athletic Association, the Mustangs now find themselves looking up at the rest of the league.

Entering the final weekend of league competition, coach Berdy Harr's crew needs no less than a sweep of pace-setter Northridge plus some assistance from Cal Poly Pomona.

The Mustangs will host the Matadors in a three game set this weekend.

Cal Poly's sister school didn't quite treat the Mustangs like one of the family last weekend, taking two of their three games to drop the Herd even lower in the league standings.

For the third straight weekend, Poly lost two of three in a league

series. After jumping out in front early and leading the CCAA two weeks into the season, the Mustangs now find themselves in third place, a single game from the depths of the league basement.

The tiny circuit itself underwent a major face-lift last weekend.

While the Mustang's slate slipped to 7-8 and Pomona upped theirs to 5-8, previous numero uno Riverside was swept by the red-hot Matadors, who bolted into the lead with an 8-5 mark. The Highlanders moved down to second place at 8-7. Northridge and Pomona have a rained-out doubleheader to make up.

After five weeks of conference play the league crown is still waiting to be claimed and all four schools have a shot.

Harr echoes this and feels it's

almost a whole new race. Except that after this weekend, there is no more.

"If it was the first weekend we would be satisfied with two of three. But because of the situation, we need to approach it differently. We have to have three wins. We have to approach it with a very positive attitude."

It's a difficult assignment. The Matadors are on a tear.

After occupying the CCAA cell two weeks into the season with an 0-4 mark, the Matadors have been 8-1, losing the single game to the Mustangs. They have won six straight CCAA contests and took a seven-game win skien into their Thursday game with Westmont.

But Harr isn't scared.

"Historically they've never played very well here. I've seen better teams than this one come

up here and drop two of three." Although Harr is puzzled by the late season slump, he has his explanation.

"The league is very tough. We have a very young team, and the competitiveness of the conference is new to many of the younger players. They're not used to the intensity of league play," explained Harr.

The Mustangs will start senior Bud Papadakis (5-9, 4.14) in the opening game Friday at 2:30. Freshman fireballer Dave Pencille (5-0, 0.94) will start the nine-inning Saturday contest followed

by Sam Solis (4-2, 2.01) in the final bout.

Southpaw Gorman Helmueller will be unavailable to Berdy's bunch for the crucial series. Helmueller was struck on the kneecap by a line drive in the 6-3 victory over Cal State Lutheran Tuesday.

The Mustangs need a sweep for any hope of the league title and an assured trip to the Western Regionals. However, if they finish in second place, because of their strong overall record, there is a strong chance they will be invited anyhow.

SLO- Town trackmen will compete in annual relays

Coach Steve Simmons plans to call upon a maneuver which he found successful in the West Coast Relays a year ago. The Mustangs' coach plans to insert sophomore sprint star Clancy Edwards in the mile relay in an effort to get the unit's time down near where it should be.

Edwards ran the second leg on Poly's mile relay team a year ago when the Mustangs won their section of the Open mile relay with the third fastest time in the event behind USC and the D.C. Striders. The Mustangs' mark was 3:11.9 and Simmons still has three of those runners on hand—Edwards, Kerry Gold and Curtis Byrd.

Arroyo Grande's Kevin McNamara is a likely leadoff runner for the Mustangs' with Edwards running No. 2 followed by Gold and Byrd. In effect, Edwards will be replacing Gil Proctor and Mike Bartlett who have shared the leadoff position.

The Mustangs' mile and 440-yard relay teams will compete in open events on Saturday with soph sprint star Clancy Edwards entered in the open 100. Edwards who has a legal 9.5 100 and 20.9 for the 220 ran wind-aided 9.5 and 20.5 times last weekend at the San Jose Invitational.

A year ago the Mustangs placed fourth in the 21-team College section with 29 points with Cal State Northridge, which went on to win the California Collegiate Athletic Association title the next week, taking West Coast honors.

Freshman Jim Schankel pased the Cal Poly school 5-mile record to 15:48.2 in finishing third in the San Jose Invitational. The old record of 15:59.8 was set by Dale Horton in 1972.

Junior pole vaulter Ken Haagen who placed fourth a year ago with a 16-0 effort, cleared 16-0 for the second time this season last

week. He'll be joined by Bob Dvorak in the vaulting competition.

Fraisure Sumpter, soph from Monterey, who has a wind-aided 9.5 in the 100 last week, will join Edwards in the mile relay in the College 100. Senior Russ Grimes is another possibility.

Sumpter will run the leadoff leg with Grimes, Kerry Gold and Edwards handling the other carries. The quartet has a season's best of 41.2 on April 19 but the Mustang mentor is expecting the team to run under 41 flat this week.

The Mustangs' will enter a distance medley team consisting of Mike Bartlett (440), Mike Lamb (880), Dave Marlow (1520) and either Randy Mylivioc or John Beaton (mile).

Other entries:

High Jump—Bob Gordon, Bill Erbes, Jerry Hougen, Jim Roberts.

Long Jump—Russ Grimes.

Triple Jump—Rich Christopher.

Javelin—Jerry Hougen, Steve Bertolucci.

120-yd. High Hurdles—Kevin McNamara, Walter Mead.

440-yd. Intermediate Hurdles—McNamara, Mead, Bartlett.

"We should get some indication of how we'll do in the conference meet off our performances at Fresno this week," Simmons commented. "The West Coast Relays are very good preparation for both the CCAA and NCAA meets. We're looking for season's best marks in everything we do this week."
